1. How does attending events like the **ANZSGM ASM 2019** inform or relate to your current practice?

**Attending conferences in related fields keeps attendees and presenters up to date and enthusiastic about their chosen career paths. As a rehabilitation physician I work closely with geriatricians and ongoing collaboration builds knowledge**

2. Which topics and sessions will you be addressing and participating in as part of the program?

**Breakfast session presenter on Driving**

3. Why should these sessions not be missed?

**Driving is relevant to almost all clients, and is an important part of maximizing client participation. Knowledge regarding assessment and standards is crucial to ensure a unified and fair assessment aimed at optimizing independence within the realms of safety, and providing dignity in our approach to this topic.**
